

# How to use The Avini Activation Pack Products

by Udana Power

## **We live in toxic soup.**

We eat, breathe, drink and rub chemicals into our skin every day. Our clothing, carpets and furniture are covered in flame retardants and other "protective" chemicals. Our cookware is covered with non-stick surfaces that leach into our food and end up being stored in our bodies.

A recent study found that 100% of the fast foods tested were loaded with heavy metals. I recently read an article that said most of our organic dark chocolate is loaded with lead and cadmium.

Our crops are sprayed with chemicals by small planes whose fuel releases lead onto the same crops and into the same ground water that's being delivered to showers and bathtubs for us to soak in.

## **A clean and healthy body can heal itself.**

Only thing is, our bodies are *not* clean. Our cells are loaded down with heavy metals and other toxins. It's hard for them to rebuild themselves with bits of mercury, lead, cadmium and arsenic running interference.

A 2005 study by the Environmental Working Group found that every newborn baby had approximately 287 industrial chemicals, pollutants and pesticides in it's bloodstream carried through the umbilical cord from the mother. Many of the chemicals were carcinogenic.

## **We can't get away from heavy metals.**

However, thanks to miraculous discoveries by our Avini Founder and genius Formulator, Rik Deitsch, we can easily remove heavy metals, volatile organic compounds and other toxins from our bodies. We can also remove viruses, bacteria, parasites, molds and other yucky living things that shouldn't be there.

I've seen so many miraculous, healthy rebounds with Avini products that I decided to take the time to write out how to use each of them so that Newbies can feel their lives transform in a few short weeks.

## **100% of Fast Food Samples Tested Positive for Heavy Metals, Lead, and Cadmium**

## **Higher cardiovascular risk linked to toxic metals found in everyday life**

By American Heart Association News

*"Chronic exposure to low levels of lead, cadmium and arsenic - metals found in daily life - increases the risk of cardiovascular disease, according to a new science report."*

*- Journal of the American Heart Association*

## These are the products included in the Activation Packs.

They are all natural and non-toxic. You can't overdose on anything. Let's start with what the formulator, Rik Deitsch, calls "The Tip of the Spear" -- the Zeolite product: Cell Defender.

## Cell Defender

### What it does:

*Removes heavy metals from the bloodstream and lymph system and out through the kidneys. It removes mercury, lead, arsenic, cadmium, etc., as well as the volatile organic compounds, benzene, dioxin, etc.*

### What's special about it:

*It's micronized and activated. Supports healthy pH levels and immune system. 100% natural and non-toxic. Goes directly into the bloodstream. This is the only zeolite available that is cleaned and activated. (Most zeolite products still contain whatever toxins they've absorbed in nature before they got to you.) 15 Clinical studies and millions of bottles sold.*

### Starting Detox Dose:

*10 Drops 4 times each day for the first bottle. Repeat the detox dose once every 6 months.*

### Normal Dose:

*10 Drops 2 times each day.*

### Crisis Dose:

*5 Drops every waking hour.*

**Quick Tip:** *Drink lots of water. The debris it picks up from the cells gets flushed out through the kidneys in the urine within 24 hours. It's important to drink lots of water to stay fully hydrated.*

*"I feel like we stepped into a stream of miracles."*

*-- Chip Littlejohn*

## Nano Silver

Spray

### What it does:

*Kills parasites, bacteria, viruses, molds and fungi -- any thing living that shouldn't be inside or on your body. Does not harm healthy bacteria in your gut.*

### What's special about it:

*It's the ideal shape and size to be absorbed into the bloodstream and eliminate pathogens. Each sphere is 7-10 nm in size and is coated with a single coat of silver oxide to keep it stable. They will never break down, de-stabilize or make you turn blue like some other silvers.*

### Normal Dose:

*5 sprays into the mouth in the morning. 5 sprays in the evening. Apply gel topically.*

### Crisis Dose:

*Drink whole bottle over 1 to 3 days.*

Gel

**Quick Tip:** *Can be sprayed topically on a wound. So pure you can wash your eyes out with it. The gel rubs easily into your skin.*

## Plus Relief

### What it does:

*FDA registered, homeopathic products for pain relief. Nonaddictive. Works on multiple types of pain.*

### What's special about it:

*Mutes pain signal. No side effects. Non-narcotic and non-toxic. Anti-inflammatory. You can't overdose. Need less over time.*

### Normal Dose:

*2 sprays in mouth in morning. 2 sprays in mouth in evening. Apply topically every 4-6 hours.*

### Crisis Dose:

*Spray 5 times in mouth, 3 to 5 times a day. It may take up to 5 days to get absorbed throughout your system and fully maximize internally. When used topically, all 3 work in minutes.*

### Quick Tip:

*Rik invented this to help veterans get off opioids. Over time you need less and less. It works its way out of a job.*

## ZMunity Mushrooms

### What it does:

*Increases longevity. Helps normalize blood sugar and cholesterol. Boosts immunity. Reduces heart disease. Antiviral, antibacterial, antifungal.*

### What's special about it:

*Liver protection. Kidney support. Improved skin and hair. Improved blood flow. Helps respiratory function. May enhance sexual performance.*

### Normal Dose:

*1 capsule in morning. 1 capsule in evening.*

### Crisis Dose:

*2 capsules in morning. 2 capsules in evening.*

### Quick Tip:

*Seven different strains of mushrooms are grown in competition with each other to enhance their strength. It also includes zeolite.*

## Plus Hydration

### What it does:

*Staying well-hydrated is critical to your metabolism. Electrolytes provide charged particles that help hold onto water. The water gets used instead of wasted through sweat and urine.*

### What's special about it:

*Low Osmolality insures maximum, rapid, systemic hydration every time you use it. It facilitates re-hydration during sports competitions and workouts.*

### Normal Dose:

*One scoop in 6 to 8 ounces of water.*

### Crisis Dose:

*May be used as frequently as needed when your whole body needs a drink, such as during workouts or athletic competitions.*

**Quick Tip:** *Not all hydration products are the same. Electrolytes provide help your body hold onto water, while carbohydrates replenish energy after exercise.*

## Plus Energy

### What it does:

*Stress reduction and cognitive enhancement. Natural caffeine without jitters. All-natural scientifically formulated adaptogenic energy shot to help you power through your day.*

### What's special about it:

*Proprietary Blend of ADX7 (Adaptogenic Blend of Eleutherococcus senticosus and Schizandra), Guarana, Theanine and micronized, activated zeolite. Moderates production of cortisol, a key stress hormone.*

### Normal Dose:

*One bottle. Some people find that drinking half or a third of the bottle at a time gives them the energy and focus they need.*

### Crisis Dose:

*Use it as often as needed for energy and focus, keeping in mind that each bottle contains 125 mg of natural caffeine.*

**Quick Tip:** *I was dozing off in an afternoon lecture when my friend gave me a Plus Energy. I schlurped it down and was amazed to almost immediately feel alive, awake, and completely refreshed in my whole body. No trace of jitters. No buzz. Just clarity of focus and aliveness. Wow!*

### **Join the Avini WhatsApp Group: The Inner Circle.**

There you will meet some of the top leaders in the company and get questions answered quickly. The Formulator, Rik Deitsch, checks in every day and answers questions. He loves to share insights with users of his products. It's filled with camaraderie, inspiration and teamwork. Enjoy!

**By invitation only.**

**Reach out to teammates for invitation link.**

### **Good health is a valuable savings account.**

Be pro-active. You can make a lot of money, however, if you lose your health in the process of making money, you'll spend it all trying to get your health back.

### **Just like we brush our teeth and shower every day, we can now clean our cells.**

What would happen to your car if you didn't change the oil and replace the oil filter regularly?

A good friend worked with a girl whose dad gave her a nice car for graduation. It was pretty, she kept it clean and polished, and used a good quality gas. It never occurred to her to change the oil.

One day the car stopped on the freeway.

When she finally got it to a mechanic, he said that the whole engine looked like it was gummed up with glue. There was nothing he could do to fix it. She had to either buy a new engine or a new car. Putting in more gas couldn't get it running again.

### **Same with your body.**

Ingesting more supplements and organic food can only go so far if your cells are slathered with toxic sludge. Unburden your cells and become amazed at how easy it is to feel clean, energetic and happy.

### **Put these products to the test.**

*"A clean and healthy body can fix itself."

### **Pick Your Poison: Cobra Venom Shows Therapeutic Promise**

Researchers may have found a way to suppress inflammatory responses by splicing a factor from the deadly snake's toxin onto a human protein

*"Researchers have found that tacking a snippet of protein from cobra venom onto human immune molecules is a novel and effective way of suppressing inflammatory chemicals involved in difficult-to-treat ailments, such as rheumatoid arthritis, heart attacks and strokes."  
- Scientific American, Dec 10 2008*

*"I'm happy! I feel happy! I haven't felt happy in years! I'm happy!"  
-- Nunei H.  
(after 4 days on the products)*
